

## Scott W. Sparrold

### Professional Experience

2022-Present	Optical Engineer, Synopsys OSG
2017	Adjunct Professor, Rowan University
2007-2022	Principal Optical Engineer Edmund Optics
2005-2007	Senior Optical Engineer, Wavefront Research Inc
2002-2005	Principal Systems Engineer, Raytheon Missile Systems
2000-2002	Senior Optical Engineer, Tera Beam
1992-2000	Senior Systems Engineer, Raytheon / Hughes Missile Systems

### Education

1997	M.S. Degree in Optics, University of Arizona
1992	B.S. Optical Engineering, University of Arizona

Scott William Sparrold is an experienced optical engineer with extensive experience in lens design, analysis, and tolerancing in visible through long-wavelength IR in the military, commercial, and optical research applications. Background spans the full engineering life cycle from research into freeform optics, diffractives, and compact imaging spectrometers (hyperspectral) to manufacturing engineering for optical production systems with drop-together processes. Currently pursuing prototype active alignment and active centering design for apochromatic microscope objectives with tooling and processes suitable for production.

### Patents

U.S. 7,498,558	Scintillation Hardened Semi Active Laser Sensor
U.S. 7,145,734	Windowed Optical System Having a Tilted Optical Element to Correct Aberrations
U.S. 6,912,360	Free space point-to-multipoint optical communication system and apparatus
U.S. 6,678,079	Transceiver for a wireless optical telecommunication system
U.S. 6,867,889	Transceiver for a wireless optical telecommunication system
U.S. 6,552,318	Sensor system with rigid-body error correcting element
U.S. 6,344,937	Beam steering optical arrangement using Risley prisms with surface contours for aberration correction
U.S. 6,343,767	Missile seeker having a beam steering optical arrangement using Risley prisms
U.S. 6,313,951	Optical system with Zernike-shaped corrector
U.S. 6,310,730	Optical system with asymmetric optical corrector
U.S. 6,270,697	Method of fabricating a blur film assembly
U.S. 6,201,230	Sensor system with dynamic optical corrector
U.S. 6,180,938	Optical system and method for providing corrected optical images
U.S. 6,028,712	Optical system with a window having a conicoidal inner surface and testing of the optical system
U.S. 5,867,307	Blur film assembly for infrared optical applications

## **Awards**

Edmund Optics MVP 2020 (elected by peers)

Edmund Optics Mentoring Award 2010

Raytheon Technical Mentoring Program October 2004

Raytheon 6 Sigma qualified specialist November 2002

Advance Technology Team Award November 1999

Hughes Electro Optic Sensor Technology Network (EOSTN) Team Award, August 1997

Hughes Aircraft Company Masters Fellowship, August 1995

## **Professional Societies**

Member, SPIE The International Society for Optical Engineering

## **Professional Activities**

Theta Tau Professional Engineering Fraternity.
